

# HONGCHAO HU

Mobile : (224) 600-6852 | Email : Jason.Hu168@outlook.com | Location : Worcester, MA 01604

LinkedIn: [www.linkedin.com/in/hohu](https://www.linkedin.com/in/hohu) | Website: <https://hongchaohu.github.io/>

## SKILLS

- **Programming:** Python (Pandas, SageMath, Seaborn), Java,
- **Data Visualization:** Tableau, Power BI, Dashboards
- **Data Management Tools:** MySQL, SQL Server, Jupyter Lab, Excel
- **Methodologies:** Data Cleaning, Data Wrangling, Data mining, Split Testing, Predictive Modeling
- **Workflow:** Agile/Waterfall, JIRA, BPMN Diagram

## EDUCATION

### Worcester Polytechnic Institute

Aug 2025 - May 2027

- *Master of Science in Data Science*

### The University of California San Diego

Sep 2020 - Jun 2024

- *Bachelor of Science in Mathematics and Computer Science*
- *Minor in Business Economics*

## WORK EXPERIENCE

### Mega InfoTechs

Jun 2024 – Jan 2025

#### *Data Analyst | San Jose, CA*

- Performed exploration data analysis using **Python (Pandas, SageMath)** to identify product usage inefficiencies and optimize feature rollout timing, decreased developing-wide operational costs by 2%.
- Built **interactive Tableau and Jupyter dashboards** to visualize user adoption metrics with stakeholder decisions.
- Used **MySQL** to extract product telemetry data, conducted cohort analysis to define schema requirements.
- Through **Aris** monitored feature-level tracking metrics for platform usage; authored actionable roadmap insights.

### Mobalytics

May 2023 - Sep 2023

#### *Data Analyst Intern | Santa Clara, CA*

- Analyzed customer behavior, retention, and churn metrics across regions using **Panda** in **Jupyter Lab**.
- Developed forecasting models by **Scikit-learn** and **SciPy** to predict market trends and optimize monetization strategy; present the model by **MS Power BI**, eliminate erroneous deliveries by 50%
- Used **Python** and **Excel** to segment users and evaluate A/B test results on feature launches and platform changes; visualized time-series product data in **Tableau** to uncover trends in session length, engagement, and conversion.
- Finalized analysis report by defining Epics, Features, and compiling BDD user stories in **JIRA**, aligning technical solutions with overarching business strategies.

### American Express

May 2021 - Aug 2022

#### *Data Analyst Intern | Los Angeles, CA*

- Conduct **AWS Cognito** access and **SQL database** integration to extract and clean data from vendor systems databases, facilitating cross-region data sharing; validated multi-source flow reports for internal performance tracking.
- Collaborated with cross-functional teams to assist in modeling design and impact analysis for compliance feature rollouts; implemented continuous API integration (CI) via **Azure** Build Pipeline.
- Crafted a **Waterfall SDLC** roadmap for cross-border financial services, ensuring compliance with international licensing.

### CTA (Central Telecom America)

Jun 2020 – Sep 2021

#### *Data Entry Analyst*

- Created backend transaction flow API using **MySQL**, enhancing data processing speeds by 13%; analyzed merchant fulfillment data to monitor delivery efficiencies and modeled growth-stage KPIs across seller segments.
- Built AWS-based reporting pipelines and structured reports in **Excel** to support early-stage seller performance tracking and operational scoring, documented merchant-side systems to support data-driven performance tracking.

## PROJECT

### Microservice Data Base API Development

Dec 2022 – May 2024

- Designed Microservice APIs to streamline data retrieval, reduce third-party dependency, and documented system architecture with BPMN flows.
- Documented data architecture and use cases to simulate user interaction flows and retrieval pipelines.

### Professional Certifications

- Professional Scrum Master™ II (**PSM II**) Issued by Scrum.org
- Professional Scrum Product Owner™ II (**PSPO II**) Issued by Scrum.org
- Microsoft **Power BI Data Analyst** Professional Certificate Issued by Coursera
